So I hear you like fashion? Well, here's how to install some of them. (Note: Some mods are set differently. Also, it's like setting a fashion for a new Minecraft launcher rather than a 1.5 one. And if you want to support me, here's my YouTube! this blog got very popular! ITS TIME TO MILK IT! :P'm joking. But if you like it, please check out my other blogs for more as well as my YouTube! Enjoy.) 1 First, if you have windows 8, go search up to %appdata % then click enter if you have 7, go to the launch menu and enter %appdata % and click enterif you have XP. Go to the launch, then %appdata%2) After that, you should see something like .minecraft (NOTE: you should have an installed version of Minecraft. This is the one you don't edit at all, and it's a version of Minecraft (Ex. 1.7.2) If you don't see one, create one by running the new version manually through the launcher (Create a new profile and choose a version !!! You should see - a copy after you copied it. (e.g. 1.7.2 - Copy)6) Rename the folder in what you want. Do the same with the content inside. Everything has to be the same name!!! Open the file with a notebook. (If you renamed it MC, he should tell MC.json, if not, put .json before renamed the name.) On the first line, you should see 1.7.2 or any other version. rename it exactly what you've called it's almost there! Go to fashion and right click on it. It must say open with winrar or 7-zip. Do it! If he says 7-zip, click that and make an open archive. It should be similar to winrar8) Do the same with the mine bank in the folder you renamed. Remember that the jar should have the same name as everything else! And that's different, not .json9) Now that both are open, drag all the contents of the mod INTO jar. NOTE: Some fashions may not tell you to do this, again, it's a classic way of fitting mods. They can also tell you to delete the META-INF folder. You don't have to do that if they don't tell you! I do it anyway though... 10) VERY CLOSE! Close everything and open the Minecraft.11 launcher, create a new profile. Choose the version you're created. (You should see the name you renamed in the folder)12) Choose your preferences and ENJOY!!!!!!!!!!!! LET ME KNOW IN THE COMMENTS ANY PROBLEMS. THE PHOTO WILL HELP ME IN YOUR SITUATION!!!
